

## **MEDICARE DRUG BENEFITS PART D ASSISTANCE IN NORTHERN KENTUCKY**

Higher premiums and changes in drug coverage are two reasons why Medicare participants may want to compare other Medicare drug plans (Part D) this year. Open enrollment is November 15th through December 31st and the Center for Medicare Advocacy is encouraging everyone to shop around and make sure your plan is the very best for your current prescription needs. Many companies not only raise monthly premiums but often change which drugs they will cover for the upcoming year.

The best way to check your plan is to go to the [www.medicare.gov](http://www.medicare.gov) website and use the plan finder tools available. If you don't have a computer or need assistance the Senior Medicare Patrol (SMP) program in Northern Kentucky is offering free counseling to Northern Kentucky residents to help Medicare participants with personalized assistance when comparing their current prescription drug plans.

**For assistance contact Senior Medicare Patrol at  
859- 491- 8303 ext. 2336**
